People Management:	Team Leadership, Coaching, Performance Management
24/7 Global Operations:	On-Call setup and Rotations, Incident / Problem response and resolutions, Cross-Location Teams, SLA adherence

PROFESSIONAL EXPERIENCE

IT Manager - ALDI DX, eCommerce | Digital Transformation (Germany)

May 2022 – Present

- Lead end-to-end IT service lifecycle for ALDI's global eCommerce platform, including the Web team and related Infrastructure components, ensuring end-to-end stability and service continuity with 99.9 percent availability, secure payment processing, and seamless business operations across international markets.
- Managed IT project portfolio of a team size of 20 using ServiceNow, Tableau, Power BI, Jira, and Confluence, aligning program delivery to business goals, cost efficiency targets, and strategic roadmaps.
- Led ITIL Incident/Problem/Change; performed RCA to reduce recurring disruptions, managed Major Incidents (MIM) for critical service disruptions as Service Owner, including incident coordination, RCA, and prioritization of sustainable corrective actions resulting reduction in Ticket volume by 10 % each month until product stability.
- Governed vendors and third parties; managed SLAs, escalations, and supplier performance for continuity.
- Implemented IT governance: risk assessments, compliance audits, and access controls aligned to enterprise security.
- Built KPI dashboards and reporting to improve visibility of IT service health, program status, and operations.
- Partnered with business, BI, and international teams to enable data-driven decisions and continuous IT improvements.
- Trained business teams on ITSM tools/processes to increase adoption and self-service resolutions.
- Mentored cross-location teams (coaching, performance feedback) and delivered multi-site onboarding/training.
- Delivered 24/7 on-call ITSM Incident response; improved service stability and SLA compliance.
- Led 24/7 global application support across time zones; reduced downtime and escalations.

- Supported disaster recovery (DR) planning and conducted dry runs/tests to validate recovery readiness for critical services.

Frontend Developer & UI/UX Lead - SFM Systems (Germany)

Mar 2021 – Apr 2022

- Built a real-time Scrum sprint tracking and burndown chart tool (Angular/TypeScript), replacing Excel tracking and improving delivery visibility.
- Partnered with product stakeholders to convert business requirements into technical solutions using Agile/Scrum

Frontend Developer - Binect GmbH (Germany)

Sep 2020 – Dec 2020

- Developed Angular-based modules for an e-post management SaaS platform, and created automated unit and integration tests using Jasmine, Karma, and Selenium to ensure code quality.

Maternity Break

Dec 2015 – August 2020

Time away from work for childcare and family commitments (Nov 2015 – Aug 2020).

Technical Lead - Tech Mahindra, IT Services & Consulting (India)

Feb 2013 – Nov 2015

- Led a cross-functional UI/UX team (6+), facilitating client workshops, requirement gathering, and stakeholder communications for an enterprise task management application.
- Managed change requests and feedback cycles delivered production-ready interfaces on schedule and supported distributed mentoring/coaching for junior developers and designers.

Senior Software Engineer- The Digital Group, IT Services & Consulting

Jul 2012 – Jan 2013

- Designed and delivered UI solutions for a litigation document management system; contributed to UX workflows, UI testing, and system integration.

Senior Software Engineer- Infosys Technologies Ltd, IT Services & Consulting

Jan 2008 – Jun 2012

- Developed desktop, enterprise, mobile, and web applications for banking/insurance, integrating latest R&D skills into delivery.
- Authored a SketchFlow UI prototyping whitepaper and delivered training across multiple business units.
- Received an award for excellence in SketchFlow/UI design and became a Microsoft Certified Professional.

KEY ACHIEVEMENTS

- Maintained 99.9%+ availability for ALDI's global eCommerce platform across multiple international markets, ensuring reliable service delivery at scale.
- Improved operational stability by implementing Problem Management and structured root-cause analysis, reducing repeat incidents, service disruptions, and overall ticket volumes.
- Delivered an Agile sprint tracking solution at SFM Systems, replacing legacy Excel workflows and strengthening forecasting, visibility, and delivery governance.
- Consistently demonstrated performance and resilience under pressure reinforcing leadership, discipline, and accountability.
- Achieved Microsoft Certified Professional (Silverlight 4 Developer) status and authored a technical whitepaper that was adopted across Infosys teams.
- Supported innovation initiatives by automating the reporting system and integrating AI into the development process, improving delivery efficiency and decision-making.
